Office Action Summary	Application No. 10/564,944	Applicant(s) VAN DEN BERG ET AL.	
	Examiner Carolyn A. Paden	Art Unit 1781	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-7 and 9-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brooker (EP 1,238,589) for reasons of record used in rejecting claims 1 and 3-16 in the last office action.

The pressure of claim 7 appears to be the pressure for the liquid or solid cryogens used in the process. Brook also uses supercritical fluids in his process and a spray process wherein the fat is atomized through a nozzle arrangement (page 5, paragraph 0033).

Applicant argues that Brooker does not teach applicants' process. This has been considered but is not persuasive. The claims merely call for forming a dispersion by mixing the ingredients of claim 1, which Brooker teaches at page 5, lines 2-12 and in claims 1-2.

The process is used with emulsions of dairy fat that have been homogenized and includes 35-40% fat (page 2, paragraph 9). Although dry

particulate matter like spices and herbs are not mentioned, it is known in the art to flavor butter with herbs and spices so no unobvious or unexpected result is seen from the use of the particulate matter of claims 20-21.

Claims 9-12 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims depend from cancelled claim 8 and thus are not seen to provide any further limitations. An amendment to the claims correcting the dependency of the claims would overcome the rejection.

Claim 18 optionally includes a solid phase and it is unclear if the solid phase of claim 1 is intended to be included or not. An amendment to the claims clarifying or cancelling claim 18 would overcome the rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a

first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn A Paden whose telephone number is (571) 272-1403. The examiner can normally be reached on Monday to Friday from 7 am to 3:30 pm.
